Orders of this enterprise for flat-headed screws of all sizes were 4 million pieces for the first Quarter of 1951, and an equal number for the next Quarter.

The production for which these orders have been placed concerns manufacture of equipment for the so-called "action M", which means erection of police and concentration-camps near Jackymov, Plzen, Pribram and Stechovice.

Energotransport, nat. enterprise, in Prague XVI, U Vesicku 1. has ordered for the first Quarter of 1951, for its stores near Prague, at Kolonie u Avie, approx. 7,500 Kg. black bolts and nuts, probably for the construction of long-distance, high-tension electric lines.

The screws have the length of:

20,30,40,50,60,70,80,90,100,110,120,130, and 35 mm.

The Ceskomoravska Kolben Danek (CKD) enterprise produces generators and turbogenerators for home-consumption and export.

The electrical installations enterprises are supplying, upon State orders, the electrical material for the Electrical Power Station at PERNIK in BULGARIA.

The Hutni Prodejna ~~has~~, in Prague, Havlickova 11, ~~has~~

has reserves of precision-screws, turned 1.1 .951 - 60858 kg.

In 1950, amounts acquired were 395.202 Kg.

*HOTNI PODEBRADSKA*  
The Metal-Industry Sales Organization, Nat. Ent, has in its stores at Havlickova 11, in Prague, a constant stock of about 90 car-loads of screws.

Supplies, orders and shortages:

The Metallurgical Industry Sales Organization has ordered, in August last year 6,200,000 ~~bolts~~ of various types, with a total weight of 16.399 Kg. The order was made by its Department 2324 at Prague II. Soukopovo 3 and placed with the FERROMET Nat. Ent. These ~~bolts~~ were all precision-screws bolts with hexagonal heads and deliveries were to be effected with utmost urgency.

FERROMET has placed the corresponding orders in Western Germany and Austria.

There is a great shortage of all high-resistance precision screws and bolts, - of 60-90 Kg/mm<sup>2</sup> and 80-100 kg. special.

In June 1950 1 ton of two-pointed rivets have been imported from DIECK's Ltd. in Glasgow, Gt. Britain.

There is a complete lack of all sizes of winged screws. There are none at all in stock.

There is a lack of screws with thread of 1.5 mm. (M 12-M33)

The chemical industry is complaining of the lack of non-ferrous screws and bolts they require in their production.

There are no small-size wood-screws. The plants which used to produce these, were ordered to produce quotas given by weight, and they consequently preferred to fulfill their quotas easily by producing large sizes only.

The above Sales Organization has shipped 30 car-loads of all types and sizes of nails to the USSR in September, 1950.

The stores of the above Organization handle about 360 car-loads of material annually. Permanent reserves amount to about 2 120 car-loads.

Certain individual orders placed with the Sales Organization:

By the JANKA Enterprize, for its Milevsko Works:  
30,000 screws B-6x15 to be delivered in the 1st Quarter of 1951

By the KAROSA, N.ent. Vysoke Myto: order to be used in the production of small army-carts "K1"-
